- a. *FARS data is currently being analyzed to identify additional indicators to be uploaded on SAPPET. FARS raw data will also be available on SAPPET's Raw Data Analysis Engine (SAPPET-RD) for users to conduct customized analysis.*
- b. *CDC's BRFSS Prevalence Data and Raw Data Analysis Tool currently does not include 2014 estimates. However, BRFSS 2014 raw data is available from the CDC website for download and analysis. The SAPPET will be updated to include the BRFSS 2014 estimates by November 2015.*
- c. *NSDUH Risk and Protective Factors data available in SAPPET is downloaded from SAMHSA's Restricted-Data Use System (R-DAS), which is currently offline. The SAPPET will be updated to include the NSDUH risk and protective factor data when it becomes available.*
- d. *TEDS indicators available in SAPPET are generated from raw datasets available from Inter-university Consortium for Political and Social Research (ICPSR), which currently provides data up to year 2012 only. SAMHSA's TEDS website provides state-level data for 2013 and 2014, depending on data availability. SAPPET will be updated to include the latest TEDS estimates as the raw datasets become available for analysis.*
